

Boxphish

Service Overview

Boxphish's Cyber Security & Awareness Training Software is designed to improve the online security knowledge of end users and reduce their level of risk – this is achieved via email threat simulation and on-going, diverse training.

Cyber Awareness Training should form a key part of any Cyber Security Strategy.

The Facts

74% of all cyber attacks start in the inbox

92% of **Malware** is delivered via email

14% of global Phishing is aimed at Office 365 account takeovers

7 out of 10 businesses don't currently invest in training programmes

More than 35% of leaders think their site will suffer a cyber breach in the next 12 months

Over 90% of Cyber Attacks involve Staff Error

43% of all cyber attacks target SMB

Hackers target **file corruption** via Malware

Employee Training and Simulation may prove to be the best Cyber Security ROI
