MOBOTIX 7 – Single Compact Technical Data

4K Indoor Camera

The unique MOBOTIX p71 Indoor camera impresses its **flexibility, precision, and wide range of applications**. You can adjust the viewing angle on three axes to any point in the room you want to monitor. Thanks to its integrated audio function and infrared LEDs, you can use the p71 Indoor reliably day and night. The versatile configuration options and the video analysis apps of the MOBOTIX 7 platform **make the small p71 a big player**.

MOBOTIX 7 – Video analysis has never been so comprehensive!

The p71 is part of the **MOBOTIX 7 platform** with its intelligent video analysis apps. A large number of existing Certified Apps already cover numerous applications, such as loitering, unattended baggage or facial recognition. You can also develop and implement your own camera apps. This is how new solutions are created time and time again. We will be happy to support you with the programming. All currently **available Certified Apps** are pre-installed and can be **tried free of charge for 30 days!**
